How to use the Imam's Corner library

Welcome

Assalamu alaikum. The library collects khutbah notes, recommended books, class handouts and guides from the Imams of the Islamic Center of Tucson. Every document opens right on this website. Nothing to download or install.

Reading

- Scroll to move between pages. The counter at the top shows where you are; tap it to jump to any page.
- Use the + and - buttons, or pinch with two fingers on a phone, to zoom. "Fit" sizes the page to your screen.
- Night mode dims the page for comfortable reading after Isha.
- Your place is remembered. Come back later and the reader opens where you left off.

Searching

Tap the search icon and type a word, for example "patience". Every match is highlighted and you can step through them with the arrows.

Sharing and saving

- Share sends a link to the exact page you are on.
- Save offline keeps a copy on your device, so you can read in the masjid or while travelling without signal.
- Download gives you the original PDF file.

For the Imam and staff

New documents are added from the admin page at /admin. Upload the PDF, give it a title, choose the type (khutbah, book, notes or guide) and publish. The site rebuilds itself within a minute or two.

Questions?

Use the Ask the Imam page, or write to Sheikh Burhan Hamdan at bhamdan@ictucson.org.
